

Socks That Stay Up – Socks That Fit Socks That Are Steps Ahead of the Competition

That's what your customers want! And that's what we offer with our new Dan Post® Cowboy, Cowgirl, and Youth Certified signature socks. ..Socks for the Cowboy and Cowgirl in all of us!

- **Stay up all day.** The unique design of our over-the-calf boot socks ensures they comfortably stay in place all day with *no binding or squeezing*. Because they stay up, they help protect the leg against the friction sometimes caused by tall boots.
- **Comfortable.** Our socks have ribbed comfort arch support, added support above the ankle, cushioning on the sole and a reinforced heel...it all adds up to less fatigue on the lower leg and calf area.
- **AntiMicrobial Yarn** permanently *inhibits growth of odor-causing bacteria*. Less bacteria and odor means more freshness and comfort. **...NEW FEATURE!!**
- **The finest materials.** These socks are made of a combination of the finest quality cotton for comfort; Sorbtek® to keep the feet a more constant temperature and to absorb, move and release moisture away from the skin for *superb moisture management*; and Lycra® to ensure that the sock keeps its shape and continues to fit well. They are knit together in a way that makes them smoother and softer for the foot. Our socks are durable, help reduce sock slippage and skin irritation, and are *cool in the summer and warm in the winter*.
- **Unparalleled fit.** There are three sizes each for the Cowboy, Cowgirl, and Youth, rather than the one-size-fits-all system available from some sock manufacturers. Cowgirl socks are specially designed for a woman's narrower foot and are less likely to slide or bunch up in the toe area.
- **Manufactured in the U.S.A.** Ideal for western boots and all types of boots (working, hunting, etc.). Cowboy, Cowgirl, and Youth Certified signature socks will be a hit with your customers.
